We will end our day with a tour of Grinnell Historical Museum. The museum is located in a late-Victorian 10-room residence and filled to the brim with Victorian era collections far larger and more significant than most community museums. Thousands of items have been lovingly and thoughtfully arranged throughout the home to recreate an authentic atmosphere of Victorian family living. Among them are an organ, a Duncan Phyfe sofa, the founder of Grinnell’s Wooten desk from 1877, and the desk from Grinnell’s old Monroe Hotel. The Victorian home was constructed in 1895-96 by a local clothing merchant and has had only three owners, and surprisingly no children have ever lived there.
